

TFS4 Multi-Station Digital Timer

TFS4 - Multi-Station Digital Timer has four, 99 hour 59 minute, timer stations that can be used simultaneously. Its large LCD and bright color coded flashing lights allow for easy viewing. The TFS4 has four distinctive audio alarms with an adjustable volume control that makes it easy to hear from across a large room.

Non-skid rubber feet or wall mounting keeps the timer secured, and its corresponding colored button keypad is splash-proof. A one-touch Start / Stop button is located on top of unit for quick and easy operation.
